### **Recommendations of the Committee**

#### **TO THE CITIZENS OF WARREN:**

The past year Common Schools, transportation and fuel have cost \$66.26 more than a year ago. State Commissioner of Education, Mr. B. E. Packard, in a recent letter, states that, because of the action of the last legislature, there will be \$100,000.00 less to be distributed from the State School Fund the coming year than there has been for the past two years. This fact means less help from the State Fund the coming year, therefore more help from the town. If trained teachers are desired for rural schools the coming year, the teaching expense will be more than the past year. Transportation cost will also be greater as there will be more children to transport, several some distance from town.

The Academy Fund has been rather seriously drawn upon the past year, over \$1000.00 being used for repairs at the high school building and support of high school. For this reason it would seem advisable for the town to raise a sufficient amount for high school that no help may be needed from this fund for several years.

The following accounts are recommended for school purposes the coming year:

Common Schools	\$6300 00
High School	2550 00

Textbooks and Supplies	800	00
Repairs	500	00
Fuel for High School	175	00

Charles E. Starrett, Chairman,  
 Grace A. Wyllie,  
 Chester R. Wallace,  
 Superintending School Committee.

### Superintendent of Schools Report

To the Superintending School Committee and  
 Citizens of Warren:—

As required by law I submit the following report  
 of the schools of Warren, my fourteenth report.

Schools the past year have been taught the most  
 efficiently they have ever been under my supervision.  
 Every school has had either an experienced or a  
 trained teacher, for the first time probably in the  
 history of the town. The finest spirit of cooperation  
 has been shown on every hand throughout the year.

High school has been a success the past year. Mr.  
 Madden has been principal of the school nearly three  
 years and his work needs no comment. Mrs. Gard-  
 iner has had broad teaching experience in the West  
 and in our own state, having been principal of the  
 Thomaston High School for several years.

Mrs. Vinal's faithful and efficient work as Music  
 Instructor in the village schools is appreciated by

every parent and pupil. Mrs. Vinal is bringing much into the lives of these girls and boys and has developed an unusual number of voices of children whose parents little realized their ability.

### **Teacher Changes**

There have been no changes in the village grade schools the past year, but the usual changes in the rural schools. At Anderson school, Miss Skillin was succeeded by Miss Vora Nye of Rockland, a graduate of Castine Normal School. At Libby school Miss Hennessy was succeeded by Miss Georgia Spear of North Haven, a Normal graduate with experience who resigned at the close of the fourth week of the fall term. Miss Helen Robinson of Ellsworth, a graduate of Gorham Normal School and having had a year of experience, was secured as her successor. At Pleasantville, Miss Starrett who has taught that school so successfully the past three years was succeeded by Mrs. Lina Smith, whose excellent work is known and appreciated.

### **Teachers' Meetings**

The first teachers' meeting of the year for rural teachers was held at the High School building Saturday afternoon, September 6th and plans were made for two later meetings, which were held Saturday, October 4th at Pleasantville and Saturday, October 18 at East Union. At these meetings classes were taught by the teachers, Mrs. Lina Smith and Mrs. Myrtie Messer, reading being especially empha-

sized at both meetings. The last meeting of the year was held at Union High School building, Saturday, November 8th, when Supt. E. L. Toner of Rockland and Supt. C. E. Lord of Camden spoke to the grade and rural teachers of both Warren and Union.

### Transportation

There were the usual changes in transportation of pupils at the opening of the fall term. Hollis Starrett, who resigned as driver of the school bus, was succeeded by Addison Oliver. At the opening of the fall term there would have been but five pupils to attend Oyster River school, were it maintained, two pupils preferring to walk to the village schools rather than attend the school. A. L. G. Hills has been transporting these pupils and his son. Mrs. Teague has continued to transport from South Warren; Clifford Overlock, from Highland; Willard Peters, from West Warren; and George Martin, his son. Ernest L. Starrett has continued to transport his children from Vaughan Neck, except in the hardest traveling, when they have been boarded by Mrs. A. O. Spear. Mrs. Gertrude Mank has also continued to transport the three children of John Lane of Mt. Pleasant, except in the hardest traveling, when they have been boarded by Mrs. Lottie Crockett and Mrs. Emma Williams of Highland. Delmont Butler of Mt. Pleasant has been boarded since September 1st by Mrs. Abbie Stickney.

Including all expenses, gasoline, oil, repairs and insurance, it has cost nearly \$24.00 a week to maintain the school bus. Mr. Starrett was paid \$20.00 a

week for 18 weeks. \$10.50 was also paid through Mr. Starrett, he paying an equal amount, to the children on Wiley road, for getting to the corner to meet the bus, when it could not be driven on that road. Mr. Oliver has been paid \$15.00 a week. The bus expenses will be found under the conveyance account.

### Repairs

Little repair work has been done the past year except the necessary minor repairs, cleaning and oiling floors. The Malcolm Corner building was painted at a cost of \$69.84. To save the expense of repairing and painting the blinds on this building were taken off and stored in the attic. It would be economy to give several buildings a coat of paint, and nearly every building should have inside painting and repairs.

### School Funds

Few towns have two such school funds as has the town of Warren. For some years \$500.00 has been received annually from the Town School Fund, toward the support of Common Schools and \$150.00 has been received annually from the Academy Fund for the support of the High School. All repairs on the High School building have also been paid for from this fund for many years. The past year the town has received the usual \$500 from the Town School Fund and over \$1000 from the Academy Fund. Of this \$1000.00 received, over \$600.00 was spent for installing flush closets, \$150.00 for painting the building and \$250.00 for the support of high school.

172 pupils in grades this fall. 23 less than a year ago and 11 less than two years ago.

153 average attendance this fall. 18 less than a year ago and the same two years ago.

54 high school pupils this fall. 6 more than a year ago and 2 more than two years ago.

46 average attendance this fall. The same a year ago and 5 more than two years ago.

209 tardy marks in the grades the past year. 66 less than a year ago, 108 less than two years ago and 207 less than three years ago.

130 pupils in grades not absent at any session for a term the past year. 8 less than a year ago.

58 pupils in high school not absent at any session for a term the past year. 1 less than a year ago.

Malcolm Corner Primary school has the best tardiness record for the year but 11 instances for 38 pupils. Grammar school, second with 10 instances for 30 pupils, and Intermediate, third with 17 instances for 32 pupils.

All schools have had 533 visitors for the year. Altho this number is 186 less than a year ago the record is unusual and shows the interest that has been taken in schools by parents and citizens.

Warren Municipal tax rate .0505.

Average municipal tax rate in State .05268.

Average municipal tax rate in County .0504.

Warren school rate .0113.

Average school rate in State .0127.

Average school rate in County .01092.

(91)

Surprising to some citizens may be the fact that neither the Warren Municipal rate nor the school rate is as high as these averages for the State.

### **Conclusion**

Another year I have been privileged to be associated with the Citizens, Selectmen, Members of the School Committee, Teachers and Girls and Boys as superintendent of schools; and once more I wish to express my appreciation of the continued fine school spirit that has been shown in every school and in every school activity. I wish especially to express to the Members of the School Committee my appreciation of their unfailing interest in schools and every school activity. The teachers and pupils I wish to thank for their finest of co-operation which has been a source of encouragement throughout the year.

Respectfully submitted,

**FRANK D. ROWE,**

Superintendent of Schools.

### **Report of the High School Principal**

To the Superintendent, School Committee and  
Citizens of Warren:

As principal of Warren High School I count it a privilege to submit to you the following report.

The total registration for this year is fifty-two, an increase of four over last year. The student body is keeping up it's good record of attendance this year.

In behalf of the student body and teachers we wish to express our gratitude for the repairs made upon the school. The students have tried this year to show their co-operation by keeping the toilets and building in as good condition as is possible.

Two new courses have been substituted for Senior French. Solid geometry was given the first half year and trigonometry the second half. The Seniors have shown splendid response to both courses.

The Senior class play was staged Dec. 19, and repeated Feb. 14. A speaking contest was put on with Waldoboro, Feb. 27. A school fair is planned for early May. There has been a baseball league formed with Waldoboro, Washington and Union.

The school is indeed fortunate in having Mrs. Gardiner as an assistant this year. She has been very helpful this year and both she and the student body have shown splendid co-operation. It is that which has made this year so pleasant and profitable.

The success of our entertainments is due in a very large measure to the efforts of Mrs. Vinal. It is difficult to really understand the progress the school has made in music under her instruction unless you have seen some of these entertainments.

Mrs. Gardiner wishes to join me in expressing appreciation to the Superintendent for his kindness and assistance.

I personally wish to express my appreciation of

the efforts of the School Committee, Parents and Pupils in making this, my third year, a success.

Respectfully submitted,

CLARENCE E. MADDEN, Jr.

Principal.

Nurse has made 185 inspections for physical defects, 162 of the children had defects of same kind, mostly dental and throat.

Home visits have been made to the homes of those needing attention most.

4.7 days are still due the town and this work will be completed before June 30, 1931.

This year we desire to increase the amounts of work done among the school children and this can only be done by employing another nurse who can devote more of her time if not all, to school work. The preventative work is as valuable as the corrective work and has scarcely been touched upon.
